

Come join the fun! Volunteer at an exciting, STEM-filled environment of a high school FIRST Robotics Competition event!

We are currently recruiting volunteers for the **2024 CalGames**, a robotics competition organized by the **Western Region Robotics Forum (WRRF)** and held from **October 11th-13th** at **Pittsburg High School** in **Pittsburg, CA**.

No prior experience/technical knowledge is necessary! We have a range of roles for anyone and everyone, technical or non-technical, new or familiar with the program.

You can sign up [here](#), or contact our Volunteer Coordinator, Renee at VolunteerCalGames@wrrf.org with any questions.

As a volunteer, you will receive a shirt and meals during the hours that you are working (breakfast / lunch / dinner). We're happy to accommodate partial day / weekend assignments, so just let us know your availability.

About the FIRST Robotics Competition:

Under strict rules, limited time and resources, teams of high school students are challenged to raise funds, design a team “brand,” hone teamwork skills, and build and program 125-lb. robots to play a difficult field game against like-minded competitors. It is as close to real-world engineering as a student can get! Teams then bring their robots to compete head to head on a volleyball-sized playing field for a series of awards, including the coveted Winner trophy.

About WRRF:

Western Region Robotics Forum, Inc. (WRRF) was formed in 2003 as a California Nonprofit Corporation with 501(c)(3) status. WRRF’s goal is to contribute in a meaningful way to the improvement of science, technology, engineering, and mathematics (STEM) education for K-16 students.
